

WILDFIRE PREVENTION

Managed forest land owners invest in wildfire prevention which helps their neighbours too.

TREE PLANTING

Planting trees after harvest is sustainable forest management that benefits us all.

MANAGED FOREST OWNERS MAKE GOOD NEIGHBOURS

RECREATIONAL ACCESS

Many managed forest owners allow activities like hiking, biking and fishing on their private property. (Check with the landowner first!)

PROTECTING KEY VALUES

Managed forest owners must protect key environmental values—soil, water quality, and fish & wildlife habitat.
